Re: Proposed Reclamation Plan for 5-H Construction Old Bell Road Material Source Mine is
Administratively Complete

Dear Mr. Hobbs:

On October 15, 2025, this office received the 5-H Construction proposed Mined Land Reclamation Plan for the Old Bell Road Material Source Mine in La Paz County. In accordance with A.R.S. §27-1272, this letter is to notify you the plans have been found *Administratively Complete*.

The State Mine Inspector can now continue to process your facilities reclamation plan. The Substantive/Technical review process should be completed in approximately 60 days. Title 27, Chapter 6 requires that the Mined Land Reclamation Plan submittal also undergo the Public Notification Process per A.R.S. §27-1229 (when the plan has been found Technically Complete by ASMI). During the public notification process, a public meeting will be held and a designated representative from your company must attend to answer questions that relate to the reclamation plan. After the public meeting, a plan approval date will be established and an approval letter will be mailed to your facility after the approval date, at which time a Financial Mechanism will then be required within 60 days of the approval letter.

If you have any questions concerning this determination, please contact Amanda Lothner at (602) 542-5971.

Yours in Health and Safety,

Les Presmyk
Arizona State Mine Inspector
